Professional summary

Detail-oriented Data Analyst with over 5 years of experience in data manipulation, analysis, and visualization. Proficient in Python, SQL, and data visualization tools like Power BI and Tableau. Proven track record of leveraging statistical methods to transform complex datasets into actionable insights, optimizing decision-making processes, and driving measurable business outcomes.

Work history

Business data analyst, 06/2023 - 12/2023
JETROE CLOUD - Canada
- Enhanced data integrity and compliance by analyzing and interpreting web analytics, improving overall data quality by 20%.
- Utilized advanced analytical techniques to identify and resolve operational disruptions, resulting in 25% reduction in cloud environment challenges.
- Led the development and implementation of standardized cloud procedures, significantly increasing efficiency throughout the software development life cycle.

Data Analyst, 01/2019 - 03/2023
GASOLINE AUTOMOTIVE PRODUCT MARKETING - Nigeria/United Kingdom
- Led the development and implementation of a predictive analytics model that increased sales forecasting accuracy by 30%, directly contributing to a 15% boost in quarterly revenue.
- Developed and maintained complex SQL queries and data models to monitor and analyze drilling and production data, ensuring accurate and timely decision-making.
- Utilized machine learning algorithms to predict equipment failures and maintenance needs, reducing downtime by 20% and extending the lifespan of critical assets.
- Created interactive dashboards and visualizations using Excel and Power BI, providing real-time insights into reservoir performance and enabling proactive management of resources.

Business development officer, 01/2017 - 01/2018
DIGITAL CONNECT LIMITED - Nigeria
- Established and nurtured key partnerships with industry leaders, enhancing the company's market presence and leading to successful collaborations on several high-profile projects.
- Collaborated with cross-functional teams to develop and launch new products and services, meeting the evolving needs of clients and opening up additional revenue streams.
- Researched and analyzed market trends in mobile and digital technology, informing strategic decisions that resulted in a 15% increase in market share.
- Played a key role in the strategic planning and decision-making process, providing data-driven insights and recommendations to senior management.

Computer Engineer, 01/2014 - 01/2015
DFC HOLDINGS - Nigeria
- Implemented and managed data backup procedures, achieving a 98% success rate in preventing data loss.
- Supported the integration of new technologies of networking solutions, facilitating seamless upgrades and improving operational efficiency.
- Resolved system outages with prompt and dynamic repairs, including emergency overnight and weekend callouts.
- Conducted rigorous testing and validation of software components, identifying and rectifying bugs to ensure the reliability and functionality of applications.

Skills

- Machine Learning
- Programming (Python, R)
- Data Analysis
- SQL
- Data Visualization: Power BI, Tableau
- Microsoft office :MS PPT , (MS Excel)
- Database Management

SOFT SKILLS
- Strong Analytical and Problem-Solving Abilities
- Effective Communication and Presentation Skills
- Business Process Management
- Critical Thinking

Education

Certification - Google Data Analytics Certification

Master of Science: Artificial Intelligence and Data Science, 2022
Solent Southampton University - United Kingdom, UK

B.Eng: Computer Engineering, 2015
Covenant University - Nigeria
